Overview

A modern, service-marketplace style website for your property legal & documentation business, inspired by vaultproptech.com. Visitors browse your services - each with a price, short description and a clear call to action - then book or enquire online and pay instantly through an integrated payment gateway. A full admin panel lets you add and manage services, prices, bookings and payments from one place. The package is all-in for one price: it includes domain registration and hosting for the first year, so your site goes live without any extra setup from your side.

Visitor-facing website (frontend)

- Modern, responsive design - home with featured services, offers and quick search
- Service categories (e.g. registration, due diligence, Khata, mutation, EC, drafting)
- Service detail page - price, timeline, what's covered & an online book / enquire button
- Online booking / enquiry form with the selected service pre-filled
- Integrated payment gateway - pay or part-pay at the time of booking
- WhatsApp & call buttons, about, contact and policy pages
- Reviews / 'completed' counts and 'why choose us' sections

Online payments

- Payment gateway integration (Razorpay / UPI / cards / net-banking)
- Pay full amount or advance against a booked service
- Automatic payment confirmation to customer & admin
- Every payment linked to its booking & service in admin
- Secure, PCI-compliant checkout handled by the gateway

Admin panel (backend)

- Secure admin login with dashboard overview
- Add / edit / delete services, prices, discounts & timelines
- Manage categories and featured / hidden services
- Bookings inbox - every lead & order with customer details
- Payment & order records with status tracking
- Homepage & banner management + SEO meta per service

Domain, hosting & go-live

- Domain registration for 1 year (.com / .in as available)
- Website hosting for 1 year with SSL (https) included
- Business email setup guidance & DNS configuration
- Deployment, go-live and basic performance setup
- Google Analytics & Search Console setup
