Overview

A clean, professional website for Fling Digital Services that gets your business online quickly and affordably. You get up to 5 pages - a Home page that introduces what you do, an About Us page that builds trust, a Services page setting out what you offer, a Portfolio page to show your work, and a Contact Us page with an enquiry form. Visitors can reach you in one tap through a WhatsApp chat button, a click-to-call link or the contact form, which delivers straight to your email. The design is modern, matched to your brand colours and logo, and fully responsive on mobile, tablet and desktop. This is a design-and-development package - the pages are built with your content, so there is no admin dashboard to maintain. It comes with a free hosting plan and 1 year of bug & error support. The domain is arranged by you (it is not on our side), and we will help connect it to the website.
