Overview

A complete online store for a single seller, with a customer-facing website and a full admin panel to run it. Customers can browse products, add to cart and place orders with online payment or Cash on Delivery, while you manage products, orders, customers and offers from one dashboard. Fully responsive across mobile, tablet and desktop.

Customer-facing store

- Home page with banners, featured products & categories
- Product listing with categories, search, filters & sort
- Product detail page with image gallery, variants & price
- Add to cart, wishlist and smooth checkout
- Customer sign up & login with email / mobile + OTP
- Multiple payments: UPI, cards, net-banking & Cash on Delivery
- Order placement, order history & basic tracking status
- Coupons / discount codes at checkout
- Content pages: about, contact, and policy pages
- Fully responsive & SEO-friendly across all devices

Admin panel

- Dashboard with sales, orders & top products at a glance
- Add / edit / delete products, categories & variants
- Stock / inventory management with low-stock view
- Order management: view, update status & mark delivered
- Customer management and basic enquiries

- Coupons, offers & homepage banner management
- Basic sales & order reports

Scope & requirements

Delivered by Bhama Vision

- Complete UI/UX design & development of the store + admin panel
- Setup of database, products, categories and all data models
- Integration of the third-party services listed alongside
- Deployment to the client's hosting + handover
- Testing and bug fixing before launch

On client's side (third-party)

- Domain and web hosting / server
- Payment gateway account and its transaction fees
- SMS / email / OTP sending service subscription
- Product photos & content (provided by the client)
- Any other paid API or plugin
