Overview

A clean, professional website for your optical store that puts your eyewear range online - spectacle frames, sunglasses, lenses and contact lenses - with up to 20 products set up for you. Customers browse the catalogue, view each product in detail and then order or enquire directly on WhatsApp, so every lead reaches you instantly. They can also request an eye test or store visit through a simple appointment form. A backend admin panel lets you add and update products, prices, photos and banners yourself, and view all enquiries in one place. It comes with a free hosting plan and 1 year of bug & error support. The domain is arranged by you (it is not on our side), and we will help connect it to the website.

Customer-facing website

- Home page with banners, featured eyewear & categories
- Product catalogue - spectacle frames, sunglasses, reading glasses, lenses & contact lenses
- Category and brand-wise browsing with search & sort
- Product detail pages with image gallery, frame details (shape, material, size, colour) and price
- Up to 20 products set up with photos, price and details
- WhatsApp integration - 'Order on WhatsApp' / 'Enquire now' buttons that open a chat with the product details pre-filled
- Eye test / store visit appointment form (name, phone, preferred date & message)
- Click-to-call button and Google Maps store location
- Content pages: about the store, services, offers & contact
- Fully responsive across mobile, tablet & desktop

Backend admin panel

- Secure admin login for the store owner

- Add, edit and remove products, categories & brands
- Upload product photos and set price, frame details & status (in stock / sold out)
- Manage the website gallery and homepage banners
- View and manage enquiries & appointment requests
- Mark products as featured to highlight them on the home page
- A short walkthrough so you are comfortable updating the website yourself
