Overview

A clean, attractive website to showcase your home decor and mythological items and turn visitors into WhatsApp orders. Your products are organised into categories - like idols & statues, pooja items, wall art, showpieces and festive decor - so customers can browse quickly, and each product gets its own page with an image gallery, material, size and price. Every product has an 'Order on WhatsApp' button and an enquiry form, so buyers reach you instantly. A full admin panel lets you add and manage categories and products yourself - we set up up to 30 products for you. The site is fully responsive and SEO-friendly, and hosting for the first year is free from our side. The domain is arranged by you (not included), and we help connect it.
