3 Websites + CMS Backends

3 dynamic websites + 3 CMS backends, migration, WhatsApp & AI integration on a Vercel + Supabase stack

QUOTATION NO.	DATE	VALID UNTIL	PREPARED FOR
BV-Q-2026-047	01 Nov 2026	16 Nov 2026	Ravis Enterprises Pvt Ltd

Overview

A complete, long-term build for your three business domains - ravis.in (B2B wholesale), jbpower.in (power electronics) and jbsolar.in (solar) - delivered as three fully dynamic websites, each with its own easy-to-use CMS backend so your team can update content without touching code. We migrate the domains and move your business emails with zero data loss and no downtime, add a WhatsApp chat widget with automated lead notifications and an AI chatbot / lead assistant that answers basic solar & power queries 24/7 and captures leads. Everything is built on a modern Vercel + Supabase stack (database included) for a fast, responsive, scalable experience with SSL and basic SEO. The price below is a one-time development fee with a clear per-website breakdown; AI usage and hosting are third-party recurring costs billed directly by the providers.

ravis.in - Ravis Enterprises (B2B wholesale)

- Clean, corporate B2B layout for dealers & wholesale buyers
- Wholesale solar product range with authorized distributorships (APS & Velox) highlighted
- Dynamic CMS backend to manage products, pages & enquiries
- Dealer / wholesale enquiry forms with lead capture
- Company profile, certifications & contact pages

jbpower.in - JB Power Electronics (service-oriented)

- Service-oriented layout for end-users & commercial clients
- Product sections - Online/Offline UPS, inverters, batteries, servo stabilizers, transformers & AMCs
- Dynamic CMS backend to manage products, services & enquiries
- Service / AMC enquiry forms with lead capture
- About, service area & contact pages

jbsolar.in - JB Solar (most complex build)

- Lead-generation-focused layout for residential (PM Surya Ghar), commercial & off-grid clients
- Dynamic project portfolio / gallery for installation photos
- Video integration and customer testimonials
- Detailed solar product pages (rooftop, off-grid, subsidy schemes)
- Dynamic CMS backend + strong enquiry / subsidy lead forms
- This site is priced higher (₹17,000) for the added complexity.

Shared across all three sites

- Dynamic CMS backend per site - add / edit pages, products & media without coding
- Floating WhatsApp chat widget, automated welcome messages & quick inquiry buttons
- Automated lead notifications by email / WhatsApp when a form is submitted
- SSL (https), basic on-page SEO and mobile-first responsive design
- Fast page loads and a consistent, modern brand feel

Migration & go-live (all 3 domains)

- Secure domain connection / DNS setup for all three domains (registrar transfer from GoDaddy optional)
- Zero-loss email migration - Google Workspace (jbpower.in) and existing emails (ravis.in) preserved via correct MX / DNS
- Uninterrupted business continuity - no email downtime during cutover
- SSL issued and verified for every domain
- Post-launch verification of mail flow, forms & pages

AI chatbot / lead assistant

- Lightweight AI chatbot to answer basic solar & power backup queries 24/7
- Collects lead info (name, phone, location) and routes it to your sales team
- Cost-effective approach (open-source / custom wrapper) integrated into all sites
- Integration & setup is included in the development fee
- Note: the AI usage / API is a THIRD-PARTY cost, billed directly by the AI provider based on usage (client-borne).

Hosting & tech stack (Vercel + Supabase)

- Frontend hosted on Vercel - a global CDN for fast, responsive delivery
- Supabase as the managed database (Postgres) powering the dynamic content & CMS
- Scales smoothly from a free tier to paid plans as traffic grows
- SSL, automatic deployments and strong uptime out of the box
- Note: Vercel / Supabase paid tiers are a THIRD-PARTY cost, billed by the provider on the client's account.
- (A unified host like Hostinger can be used instead on request; Vercel + Supabase is recommended for speed.)

Price breakdown

- ravis.in - B2B wholesale website + CMS backend: ₹15,000
- jbpower.in - power electronics website + CMS backend: ₹15,000
- jbsolar.in - solar website + CMS backend (gallery, video, detailed product pages - more complex): ₹17,000
- Each website price includes its CMS backend, WhatsApp widget + lead notifications, AI chatbot integration, domain + zero-loss email migration, SSL, basic SEO and Vercel + Supabase deployment.
- Total one-time development (3 websites + 3 backends): ₹47,000
- Third-party (not in the above): AI usage / API, Vercel & Supabase paid tiers, WhatsApp API fees, domain & email subscriptions - billed directly by each provider.
- AMC / IT support retainer: optional, quoted separately on request.

What's included & what's a third-party cost

Included in this package

- 3 fully dynamic websites - ravis.in, jbpower.in, jbsolar.in
- 3 dynamic CMS backends (edit content without coding)
- Domain connection / DNS setup for all 3 (transfer optional)
- Zero-loss email migration (Google Workspace / existing emails)
- WhatsApp chat widget + automated lead notifications (email/WhatsApp)
- AI chatbot / lead assistant - integration & setup
- Vercel + Supabase deployment (fast & responsive) with SSL

Third-party / not included

- AI usage / API cost - third-party, billed by the AI provider
- Vercel / Supabase paid tiers - billed by the provider as usage grows
- WhatsApp Business API provider fees (if official API is used)
- Domain renewal & Google Workspace subscription fees
- Product photos, content, videos & copywriting (client-provided)
- AMC / ongoing IT support retainer (optional - quoted separately)

Terms & next steps

Payment: 40% advance to start, 30% at midway, 30% on delivery (or as mutually agreed).

- All prices are in Indian Rupees (INR) and are one-time for the design & development work quoted.
- Base price per website is ₹15,000. jbsolar.in is a more complex build (project gallery, video, detailed product pages) and is priced at ₹17,000 (+₹2,000). Total one-time development is ₹47,000 for all three websites and their CMS backends.
- AI chatbot / lead assistant integration is included; the AI usage / API is a third-party cost billed directly by the AI provider based on usage.
- Hosting uses Vercel + Supabase for speed and scalability; their paid tiers are third-party costs billed by the providers on the client's account. A unified host (Hostinger or similar) can be used instead on request.
- Domain renewal, Google Workspace / email subscriptions and any official WhatsApp Business API provider fees are paid by the client directly.
- Email migration is carried out with zero data loss and no downtime; mailboxes remain on Google Workspace / the client's provider and are preserved via correct MX / DNS.
- Product photos, content, videos and copywriting are provided by the client and managed via the CMS backends.
- An Annual Maintenance Contract (AMC) / ongoing IT support retainer is available and quoted

separately on request.

- Timelines begin once content, access and the advance payment are received.
- Prices are exclusive of GST, if applicable.
