Overview

A complete package for a real estate project: a professional, responsive project website with a backend admin panel, plus an ongoing monthly service that plans and runs your social media advertising. Buyers explore the project, units, floor plans and amenities and send enquiries that reach you directly, while you manage listings and leads from one dashboard. Each month we set up and optimise 5 ad campaigns on Meta (Facebook & Instagram) with custom creatives and a performance report. There are two fees: a one-time development fee of ₹9,000 for the website & admin, and ₹8,000 per month for ad campaign management. The ad budget (the money actually spent on ads) is set and paid by you directly to the platform - it is separate from our fee and will differ depending on your monthly goals.
