Overview

A complete tour & travel website built to capture leads and to be found on Google. Visitors browse your tour packages with photos and details and reach you in one tap - an enquiry form that lands in your email and WhatsApp, a WhatsApp chat button and an 'Enquire on WhatsApp' button on each package. A full admin panel lets you add and manage packages and view every lead in one place. The whole site is built SEO-friendly and submitted to Google Search Console so your packages can rank and pull in organic enquiries. The project is a one-time development fee, with an optional monthly website-management plan under which we add 2-3 new tour packages every month with SEO and keep the site fresh.
