Yeh Hai News India

Overview

A modern, fast news portal for Yeh Hai News India where readers browse the latest stories by category, read breaking, featured and trending news, and switch the site language between Gujarati (default), English and Hindi. A full admin panel (CMS) lets your team publish and manage articles - with images, videos, categories and tags - and control what appears on the homepage. Reporters can be given their own logins with roles. The site is responsive, SEO-friendly and built to handle a growing library of news.

Reader-facing website (frontend)

- Modern, responsive news design - homepage with breaking ticker, featured, latest & trending
- Category & sub-category pages (e.g. National, Gujarat, Politics, Sports, Business, Entertainment)
- Article page - title, cover image, body, author, date, gallery & video embeds
- Language switch on every page: Gujarati (default), English, Hindi
- Search, tags, related & most-read articles
- Social sharing (WhatsApp, Facebook, X) & click-to-share
- Photo gallery / video sections and web-story style posts
- About, contact (with form) and policy pages

Language & translation

- Site interface (menus, labels, buttons) in Gujarati, English & Hindi
- Gujarati set as the default language on first visit
- One-tap language switch that remembers the reader's choice
- Each article supports Gujarati / English / Hindi versions entered from the admin panel
- Optional: connect a translation API (e.g. Google) to auto-draft other languages for the editor to review (API billed to the client)

Admin panel / CMS (backend)

- Secure login with dashboard (views, latest posts, drafts)
- Create / edit / publish / schedule articles with a rich text editor
- Enter article content per language (Gujarati / English / Hindi)
- Manage categories, tags, breaking-news & featured flags
- Media library for images & videos
- Author / reporter accounts with roles (admin, editor, reporter)
- Homepage & menu management, plus basic SEO meta per article
- Comments / enquiry moderation (if enabled)

Performance & SEO

- Fast-loading, mobile-first pages built for news traffic
- SEO-friendly URLs, meta tags, sitemap & structured data for articles
- Social preview cards for shared links
- Google Analytics / Search Console ready
