QUOTATION NO.

BV-Q-2026-018

DATE

22 Sep 2026

VALID UNTIL

07 Oct 2026

PREPARED FOR

RAUVIYA

## Overview

A premium, luxury-styled website for RAUVIYA that showcases your products beautifully rather than selling them through a cart. Visitors browse by category, open a rich product page with an image gallery, description and clear feature highlights, then tap an "Enquire on WhatsApp" button to reach you directly - no checkout, no payment gateway. Behind the scenes, a full admin panel lets you manage categories, products and their features, update the homepage, and track every enquiry. The design is responsive and built for a refined, high-end brand feel.

## Customer-facing website (frontend)

- Premium, luxury-styled responsive design - elegant home with hero, featured products & category highlights
- Category & sub-category browsing with search, filter and sort
- Product listing pages laid out for a clean, high-end showcase
- Product detail page - image gallery, full description and a dedicated feature / specification list
- Prominent "Enquire on WhatsApp" button on each product (pre-fills product name so you know what they want)
- Floating WhatsApp chat button available site-wide
- Enquiry form (name, phone, message) as a fallback to WhatsApp
- About, contact (with Google Map) and policy pages

## Products & features

- Products grouped into categories / collections you define
- Each product with images, rich description, price-on-request or displayed price (your choice)
- Per-product feature / specification highlights (bullet list you control)
- Tags, related products and "featured" flag for the homepage

- Initial set of products & categories set up for you at launch

## Admin panel (backend)

- Secure admin login with dashboard overview
- Manage categories & sub-categories (add / edit / delete, reorder)
- Manage products - images, description, price and the per-product feature list
- Mark products as featured / hide them from the site
- Enquiries inbox - every WhatsApp/form lead captured with product context
- Homepage & banner management, plus content pages
- Basic settings - WhatsApp number, contact details & SEO meta

## WhatsApp enquiry (instead of add-to-cart)

- Click-to-chat (wa.me) integration - opens the customer's WhatsApp with your number
- Message pre-filled with the product name / link so you instantly know the interest
- Uses the free WhatsApp click-to-chat - no paid API needed
- Every enquiry also logged in the admin panel for follow-up

## What's included & what's not

### Included in this package

- Premium, luxury-styled responsive website
- Product catalog organised by categories & sub-categories
- Rich product pages with images, description & feature highlights
- WhatsApp "Enquire on WhatsApp" button on every product
- Full admin panel to manage categories, products & enquiries
- Enquiry / lead capture with WhatsApp + email notification
- Basic on-page SEO, contact page & Google Maps

### Not included

- Domain and hosting (arranged & paid by the client)
- Online payments / cart / checkout (not part of this scope)
- Product photography & content (provided by the client)
- WhatsApp Business API subscription (uses free click-to-chat)
- Multi-vendor / marketplace features & mobile app
- Ongoing marketing / paid ads and any paid plugin or API

## Investment

TOTAL · Luxury Website + Admin

RAUVIYA Luxury Catalog Website - Category & product...

Delivery: 15-22 working days

**₹3,800**

one-time (design & development)

## Terms & next steps

Payment: 40% advance to start, 30% at midway, 30% on delivery (or as mutually agreed).

- All prices are in Indian Rupees (INR) and are one-time for the design & development work quoted.
- Domain and hosting are arranged and paid for by the client directly.
- This is a catalog / showcase website - it uses WhatsApp enquiry instead of an online cart, checkout or payment gateway.
- Product photos and content are provided by the client; an initial set of products/categories is set up at launch and more can be added via the admin panel.
- WhatsApp integration uses the free click-to-chat; the WhatsApp Business API (if ever needed) is separate.
- Multi-vendor / marketplace features and a mobile app are separate.
- Prices are exclusive of GST, if applicable.
