Overview

A modern, marketplace-style website to showcase your saree collection and turn visitors into WhatsApp orders. Customers browse sarees by category, search and filter by fabric, occasion, colour and price, and open a rich product page with an image gallery and full details. Instead of a cart and online payment, every product has an 'Order on WhatsApp' button that opens a chat with the saree's name, image and price already filled in - so you close the order personally on WhatsApp. A full admin panel lets you add and manage products and categories; we set up your first 30 sarees for you. The store is fully responsive and SEO-friendly.
