Overview

A complete monthly paid-advertising management service. We plan, set up and run 5 ad campaigns for you, design the creatives, optimize the campaigns every other day for better results, and send you a clear performance report every month. The advertising budget (the money actually spent on ads) is set and paid by you directly to the ad platform - our fee covers the management, creatives and optimization work only.

What we will provide

- Research first: audience, keyword & competitor research before we launch
- Setup & management of 5 ad campaigns on your chosen platforms (e.g. Meta / Google)
- 5 custom static ad creatives (image / graphic ads) - no videos in this package
- Ongoing optimization every other day, or more often when needed - adjusting audiences, placements, bids & budgets
- A/B testing and refinements within the 5 creatives
- Conversion / pixel tracking setup and monitoring
- One detailed performance report each month - reach, clicks, spend, results and clear next-step insights

Good to know

- The ad budget (spend on the platform) is decided and paid by you directly - it is not part of this fee.
- This package covers static creatives only; video ads can be added separately on request.
- Results depend on budget, product and market - we optimize for the best possible outcome.
